

-XM is a paid for service. It is not up to NAB to modify it's services.-XM provides variety and quality not available on regular radio

-I am a traveling sales rep and the weather and traffic benefit my safety and livelihood. Thus said canceling would endanger me and my ability to earn. NAB would be held liable, I would think.

-As a tax payer and voting citizen that respects the constitution I urge you to Reject Petition 04-160.

-It is American to have the ability to chose XM programming without interference.
